Peter Janasz

Full Stack Software Engineer

Profile

Highly motivated professional with 18 years of experience in healthcare and recent completion of a Full-Stack Developer Boot Camp at Arizona State University. Seeking to leverage strong analytical, problem-solving, and teamwork skills to transition into a full-stack software development role.

Employment History

Anesthesia Tech Supervisor at Mayo Clinic, Phoenix

September 2021 — July 2023

- Led a team of 20 anesthesia support staff, fostering a collaborative and supportive work environment.
- Implemented and enforced new policies and standards to ensure compliance with JCAHO regulations, demonstrating strong attention to detail and a commitment to best practices.
- Developed and maintained positive relationships with staff across multiple departments, facilitating effective communication and teamwork to optimize patient outcomes.
- Demonstrated dedication by being on-call during overnight and weekend shifts, emphasizing a strong work ethic and the ability to meet critical deadlines in high-pressure situations.

Anesthesia Tech Team Lead at Mayo Clinic, Phoenix

August 2019 — September 2021

- Guided and mentored new team members during their orientation process, fostering a culture of continuous learning and growth within the team.
- Collaborated with the ICU department to provide crucial support during the COVID-19 pandemic, including the training of anesthesia techs to assist ICU nurses and respiratory techs in caring for COVID patients. This experience showcased adaptability and the ability to respond to evolving challenges.
- Coordinated "buddy calls" to help new staff become acquainted with on-call responsibilities, demonstrating effective communication and teamwork.

Anesthesia Tech at Mayo Clinic, Phoenix

October 2005 — August 2019

- Demonstrated exceptional problem-solving abilities by troubleshooting Drager anesthesia machines and other essential anesthesia equipment, showcasing adaptability and technical proficiency.
- Leveraged proficiency in medical record software to streamline documentation and improve accuracy in patient records, underlining the ability to adapt to and utilize software effectively.
